"We are not just building a water bottling company. We are building a trusted Zambian brand — proving that world-class production can be built right here in the Copperbelt."

— WILLIAM KOCHEZ PHIRI, MANAGING DIRECTOR

Vilagio Trading Limited was founded on a single, clear conviction: that the Copperbelt deserves consistently safe, high-quality drinking water, produced locally, by Zambians, to international standards.

Every commitment in this profile — on quality, on service, on growth — is one we intend to be held to. This is the beginning of something built to last, and we are inviting you to be part of it.

About Vilagio Trading Limited

Vilagio Trading Limited (VTL) is a Zambian-owned water bottling company built around a single conviction: the Copperbelt deserves access to consistently safe, high-quality drinking water, produced locally, to international standards.

The company is founded and led by its Managing Director, William Chenecho Phiri, from a purpose-built facility on Kitwe Road, Chingola, housing a state-of-the-art Victory Star 14-12-5 semi-automated filling line imported from Shanghai Victorystar Intelligent Technology Co., Ltd.

The VTL team has invested in a business that is commercially competitive and operationally rigorous: HACCP-compliant production, full batch traceability, ZRA and ZABS compliance infrastructure, and a purpose-built ERP tracking the business in real time.

FRESHDRIP 500ML · BRAND IN MOTION

> *What differentiates VTL is not just the product — it is the discipline and infrastructure behind it. We entered this market ready to operate, not learning how to operate once in it.*

OUR FOUNDING STORY

The Copperbelt — home to Zambia's mining heartland, a growing urban population, and a significant institutional and hospitality sector — was served almost entirely by external producers, with no credible Zambian-owned brand in the premium-quality tier. VTL was established to fill that gap: equipment sourced from Shanghai after extensive evaluation, a facility prepared to food-grade standard, a lean founding team recruited and trained, and a full governance framework built before the first bottle was ever filled.

Mission & Vision

OUR MISSION

To produce safe, high-quality purified drinking water that exceeds customer expectations — delivered consistently, priced competitively, and manufactured to the highest food safety standards by a proud Zambian business.

OUR VISION

To be the most trusted bottled water brand in the Copperbelt Province — and the benchmark for Zambian-owned food and beverage manufacturing across the country.

WHERE WE STAND

Purpose-built facility on Kitwe Road, Chingola, at the heart of the Copperbelt's mining and urban economy.

HOW WE OPERATE

HACCP-compliant, ZABS-aligned, and governed by a full quality management system from day one.

WHERE WE ARE GOING

First-choice water brand in the Copperbelt — and in time, a national Zambian manufacturing benchmark.

Our Core Values

Five operating commitments that govern how every decision at VTL is made — from the production floor to the boardroom.

01

Safety First

No production target, commercial pressure, or instruction ever overrides safety. If it is not safe, it does not happen.

02

Product Integrity

Every bottle that leaves this facility must meet specification. A bottle that fails is reworked or destroyed — never released.

03

Honest Records

We record what actually happened, not what we wish had happened — the foundation of compliance and trust.

04

Mutual Respect

Every colleague, customer, supplier, and visitor is treated with respect — not a cultural aspiration, but the operating standard.

05

Continuous Improvement

We are a young company building our systems as we go. Raising a problem or flagging a gap is always welcomed, never penalised.

A full water portfolio, built for scale.

freshDrip purified drinking water is treated through Reverse Osmosis, UV sterilisation, and ozone treatment — engineered to consistently meet and exceed ZABS bottled water standards, across every segment of the Copperbelt market.

500ml & 750ml PET
Everyday retail & hospitality format

5-Litre & 20-Litre
Households, offices & institutions

Sachet Water
High-access, high-volume community format

PRODUCT	CAPACITY	PRIMARY MARKET
500ml PET Bottle	3,000–4,000 / hr	Urban retail, supermarkets, vending, hospitality
750ml PET Bottle	3,000–4,000 / hr	Cafés, restaurants, offices, premium retail
5-Litre Container	80–100 / hr	Households, offices, schools, institutions
20-Litre Refillable	Semi-automated line	Mining, large offices, hotels, bulk buyers
Sachet Water	2,000 sachets / hr	High-volume retail, markets, affordable segment

Production technology & capacity.

The Victory Star 14-12-5 fully integrated line — a 14-head rinser, 12-head filler, and 5-head capper — anchors a facility engineered for consistency at scale.

STAGE 01

Reverse Osmosis

Removes dissolved solids — TDS held below 50 ppm.

STAGE 02

UV Sterilisation

Eliminates microbial contamination at point of bottling.

STAGE 03

Ozone Treatment

Provides extended shelf-life protection after filling.

STAGE 04

In-Line Monitoring

pH, TDS & conductivity checked every 2 hours.

PRODUCTION CAPACITY AT FULL UTILISATION

660,000 bottles / month

At 80%+ capacity across 10-hour shifts, six days a week — sufficient to supply the Copperbelt's supermarket, mining, and hospitality sectors at scale.

Inside the Chingola facility.

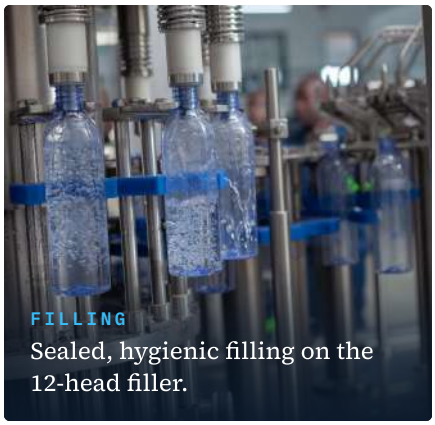

From raw water to sealed bottle — the plant, the line and the checks that stand behind every freshDrip product.

QUALITY CONTROL
Line-side inspection of every 500ml run.

VICTORY STAR LINE
Conveyance and sleeve-labelling on the Kitwe Road floor.

FILLING
Sealed, hygienic filling on the 12-head filler.

WATER TREATMENT
Multi-stage RO plant with media pre-filtration.

PET BLOW MOULDING
Bottles formed in-house for full packaging control.

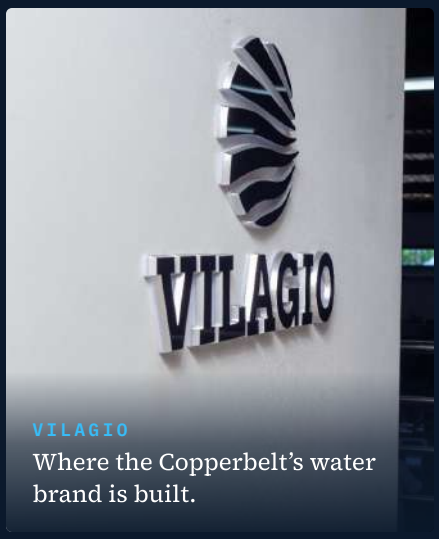

5-GALLON LINE
Refillable 18.9L format on the bulk conveyor.

The people behind the product.

A Zambian team working to documented procedure — tested, traced and accountable at every step.

PACKING
End-of-line shrink-wrapping, staffed under full GMP.

VILAGIO
Where the Copperbelt's water brand is built.

IN-HOUSE LABORATORY
Conductivity testing on the QC bench.

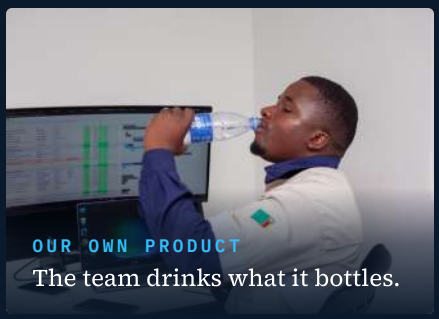

BATCH TRACEABILITY
Every pallet tagged with production date and batch number.

LEADERSHIP
Management review led by the Managing Director.

BOTTLE FORMING
5-gallon bottles formed and inspected on site.

OUR OWN PRODUCT
The team drinks what it bottles.

Target market & position.

freshDrip is positioned to serve the full breadth of the Copperbelt water market — from the individual shopper to the mining operation requiring reliable bulk supply. Strategy prioritises depth in Chingola before geographic expansion.

PRIMARY **Urban Consumers**	Chingola households, office workers, and individual buyers via supermarkets, spaza shops, and general retail.	Consistent quality, attractive packaging, competitive pricing — 500ml & 750ml formats.
SECONDARY **Retail & Hospitality**	Supermarkets, restaurants, cafés, hotels, guesthouses, and event venues across the Copperbelt.	Reliable supply chain, trade terms, and full SKU range that enhances venue image.
TERTIARY **Mining & Institutional**	KoBold, Konkola Copper Mines, Mimbula, Mopani Copper Mines, First Quantum, schools, hospitals, government offices and large employers.	High-volume contracts, 5L & 20L formats, documented QA, and delivery reliability.
VALUE SEGMENT **Community & Value**	Price-sensitive consumers, market traders, and high-volume peri-urban distribution points.	Sachet water at accessible price points — high volume, fast throughput.

Competitive landscape: Vatra · Aquavita · Vital · Aquafresh and regional brands — limited Zambian-owned in the premium tier.

Year 1 commercial targets.

Clear, disciplined benchmarks that hold the business accountable from the first day of commercial operation.

15%
Chingola market share by Month 12

200+
Active retail outlets by Month 12

80%+
Capacity utilisation by Month 8

M6
EBITDA positive by Month 6

Zambia's bottled water market is valued at $152.15M in 2025, growing 7.87% annually toward $184.9M by 2029 — with per-capita consumption of 17.88 litres and 95% of demand concentrated in at-home purchase.

Competitive advantage.

The Copperbelt market has established players. freshDrip enters not by matching what exists, but by being categorically different where it matters most.

Zambian Ownership

100% Zambian-owned — a genuine point of pride and a growing driver of consumer and institutional loyalty.

Rigour From Day 1

QMS, HACCP plan, SOPs and traceability were built before the first commercial run — audit-ready from the beginning.

Enterprise-Grade ERP

A purpose-built ERP tracks inventory, production, quality, HR and finance in real time — rare among Zambian SME manufacturers.

Local Production Edge

A shorter supply chain than imports means fresher product, lower logistics cost, and faster response to demand.

Built to Scale

The Victory Star line scales to two or three shifts without additional capex. Kitwe and Ndola expansion is already roadmapped.

Quality Without Compromise

No bottle leaves this facility unless it meets specification. Every batch tested; every deviation recorded and corrected.

Quality, compliance & credentials.

Quality at VTL is not a department — it is a production philosophy. Every process, record, and batch is governed by documented, signed, auditable procedure.

STANDARD	WHAT IT COVERS
ZABS Compliance	All products produced to the Zambia Bureau of Standards bottled water specification; a condition of commercial operations.
HACCP Plan	Four critical control points — water treatment, filling, capping, storage & handling — each with monitoring, corrective action and verification records.
GMP	Good Manufacturing Practice protocols enforced for all staff: hygiene, area conduct, contamination control, PPE and chemical safety.
Full Batch Traceability	Every production run traceable to raw material lot, date, operator, QC results and dispatch — forward and backward.
VTL QMS	Document register, version-controlled SOP library, non-conformance reporting, CAPA workflow, internal audit programme.
Water Quality Monitoring	TDS, pH, conductivity and microbial count tested every 2 hours in production, plus scheduled external lab testing.
ZRA & Employment Code Compliance	Registered ZRA taxpayer; contracts, leave and NAPSA managed under the Employment Code Act No. 3 of 2019.

Infrastructure investment.

Our capital investment reflects the seriousness with which VTL approaches operational excellence.

$500K	Victory Star 14-12-5 filling line, FOB Shanghai — the facility's primary capital asset.
Solar Power	Feasibility study completed, targeting reduced ZESCO dependency and better production cost economics.
Enterprise ERP	Purpose-built on Next.js / Node.js / PostgreSQL — full audit trail and role-based access across every business function.
In-House Lab	Dedicated QC laboratory for water quality testing, microbial sampling, and daily in-process checks.

Manufacturing tax rate: 15% (vs. 35% standard) · MFEZ 10-year export tax exemption eligible

Growth roadmap.

Year 1 establishes depth in Chingola before the business scales horizontally across the Copperbelt and vertically into new categories.

MONTHS 1–2

Ramp-Up

50–70% utilisation, 10,000-bottle pilot run, soft launch to select retail partners.

MONTHS 3–6

Growth

73–80% utilisation, 200+ outlets, EBITDA positive, mining contracts under negotiation.

MONTHS 7–12

Maturity

80–93% utilisation, 15% Chingola share, distribution into Kitwe periphery, solar Phase 2.

YEAR 2–3

Expansion

Kitwe, Ndola, Luanshya, Mufulira. Flavoured & functional water. Second shift or added lines.

Local ownership. International standards. Zambian pride. This is the roadmap by which freshDrip becomes the Copperbelt's first-choice water — and, in time, a name known well beyond it.

Let's bring pure water to the Copperbelt — together.

For enquiries, distribution partnerships, or bulk supply agreements, our team welcomes the conversation.

Dear Sir/Madam

RE: TAX CLEARANCE CERTIFICATE FOR VILAGIO TRADING LIMITED - SECTION 81B (CAP 323)

This is to certify that VILAGIO TRADING LIMITED trading as VILAGIO TRADING LIMITED with TPIN 2003903432 is duly registered for tax purposes.

In addition, this tax clearance certificate has been issued to VILAGIO TRADING LIMITED trading as VILAGIO TRADING LIMITED pursuant to section 81 B of the Income Tax Act (CAP 323).

This certificate is valid up to 31/12/2026.

Accordingly, in terms of section 81 B of the Income Tax Act, for the duration of this certificate, the above named is free to conduct business in line with the trading license held.

Please note that any established act of non-compliance with the provisions of the Income Tax Act shall invalidate this Certificate.

You are advised to always scan the QR code to verify the validity of this Tax Clearance Certificate especially when submitted on a date different from the print date.

Yours Faithfully,

RICHARD KAPASA
