CHAPTER I — THE SOURCE

Born beneath the Copperbelt.

Filling line, Kitwe Road, Chingola — every bottle sealed under HACCP-compliant protocols.

In the heart of Zambia's Copperbelt, on Kitwe Road in Chingola, Vilagio Trading Limited draws freshDrip from deep underground aquifers — water that has travelled slowly through ancient stone before it ever meets the light.

Every drop is then refined through a multi-stage regimen: reverse osmosis to bring total dissolved solids below 50 ppm, ultraviolet sterilisation, and a final ozone treatment that seals in freshness without leaving a trace.

The result is water of quiet distinction — soft, clean and balanced. Produced to HACCP-compliant standards and aligned with Zambia Bureau of Standards requirements, freshDrip is a wholly Zambian expression of purity: 100% locally owned, and made for a cleaner Zambia.

COMPLIANCE FRAMEWORK

freshDrip is now certified by the **Zambia Bureau of Standards (ZABS)** and the **Zambia Compulsory Standards Agency (ZCSA)** — produced under HACCP-compliant protocols, with every batch treated by reverse osmosis, UV and ozone.

freshDrip Premium in its signature white sleeve.

N° 01 · FD-500ML-PREMIUM

The Pinnacle of Purity.

freshDrip 500ml Premium Bottled Water

Crafted for the discerning palate. Sourced and purified to pristine standards on the Copperbelt, freshDrip Premium offers a crisp, velvety mouthfeel and absolute refreshment — presented in an ergonomic luxury PET silhouette as considered in the hand as it is on the tongue.
